WHY GEODESIC DOMES?

A smart choice for New Zealand accommodation and lifestyle projects

✓ FAST INSTALLATION

Quick to assemble on site with minimal disruption.

✓ STRONG & DURABLE

Engineered for strength and long-term performance in exposed conditions.

✓ SUITED TO NZ CLIMATES

Works well across coastal, alpine and rural environments.

✓ LOW-IMPACT FOOTPRINT

Minimal site works and a lighter environmental footprint.

✓ UNIQUE GUEST EXPERIENCE

Stand out from traditional accommodation and create memorable stays.

✓ VERSATILE & COST EFFECTIVE

Ideal for Airbnb, retreats, guest rooms, studios and extra space.

Designed to perform in seismic conditions

Geodesic domes are structurally stable and inherently resilient, making them well suited to New Zealand conditions when correctly specified and installed.

STRONG GEODESIC
STRUCTURE

FLEXIBLE & RESILIENT
DESIGN

BUILT FOR SAFETY
& RELIABILITY

WELL SUITED TO
SEISMIC ZONES

DOME LIVING

*Create unique accommodation
experiences that guests remember.*

sales@domeliving.co.nz

www.domeliving.co.nz

For New Zealand

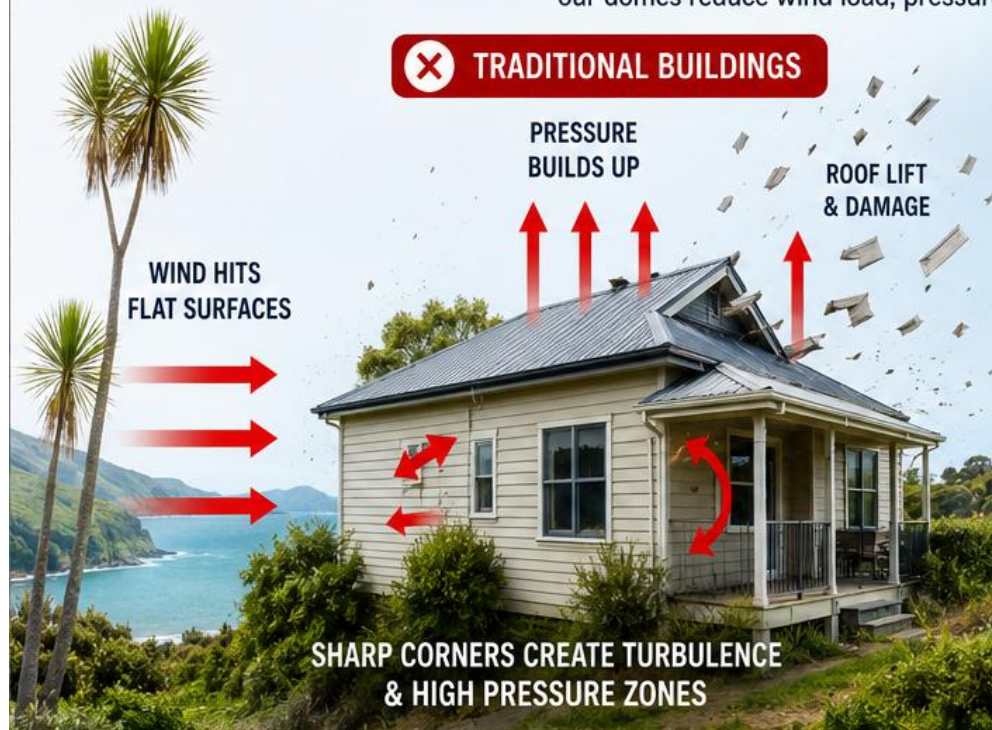

DESIGNED TO DEFLECT WIND, NOT FIGHT IT

*Proudly designed
for New Zealand*

Geodesic geometry works with nature. By distributing forces evenly across the structure, our domes reduce wind load, pressure and turbulence for greater strength and stability.

❌ TRADITIONAL BUILDINGS

✅ DOME LIVING GEODESIC DOME

VS

NO FLAT WALLS TO CATCH THE WIND

Curved surfaces allow wind
to flow around the structure.

AERODYNAMIC SHAPE REDUCES WIND PRESSURE

Wind deflects over the dome,
minimising uplift and drag.

EVEN LOAD DISTRIBUTION THROUGHOUT THE STRUCTURE

Geodesic design spreads forces
evenly for maximum strength.

BUILT FOR NEW ZEALAND CONDITIONS

Engineered to perform when
correctly specified and installed.

IMPORTANT FOR NEW ZEALAND CONDITIONS

Wind performance depends on the complete system — frame specification, anchoring, foundation and site-specific engineering. We recommend professional assessment and engineering to ensure suitability for your specific location and conditions.

COMPLETED 6m DOME EXAMPLE

Dome kit assembled in approximately 2–3 days

This 6m dome example shows what can be achieved with efficient dome kit assembly and a quality finish.

DOME KIT ASSEMBLY: APPROX. 2–3 DAYS

Typical capable 3–4 person team

DOORS, WINDOWS & FRONT CLEAR WINDOW

- 1 insulated entry door
- 1 large clear front window
- 1 glass porthole window
- 2 triangle mesh windows

TWO TRIANGLE MESH WINDOWS

WHY GUESTS CHOOSE DOME ACCOMMODATION

A unique stay that connects guests with nature and creates lasting memories.

UNIQUE & MEMORABLE

Stand out from traditional accommodation with a one-of-a-kind guest experience.

SOCIAL MEDIA APPEAL

Photogenic design that guests love to share — driving positive exposure for your property.

CONNECTION WITH NATURE

Panoramic views, natural light and fresh air create a more immersive stay.

WELL SUITED TO NEW ZEALAND TOURISM

Ideal for retreats, eco-lodges, glamping and boutique accommodation.

SCALABLE & FLEXIBLE

Start with one dome and expand over time to build your vision.

AIRBNB & GLAMPING

Stand out on Airbnb and attract guests seeking unique, nature-connected stays.

WELLNESS RETREATS

Create peaceful spaces that inspire relaxation, connection and wellbeing.

GUEST
ACCOMMODATION

Offer premium accommodation for friends, family or visitors to your property.

EVENT SPACES

Host unforgettable events, weddings and workshops in a breathtaking setting.

HOME OFFICE /
STUDIO

A quiet, inspiring space to focus, create and enjoy balance at home.

LIFESTYLE BLOCKS

Add value and income potential to lifestyle blocks and rural properties.

DOMELIVING

Create unique accommodation experiences that guests remember.

For New Zealand

FAST INSTALLATION, READY WHEN YOU NEED IT

Our domes are designed for efficiency and simplicity, so you can open your accommodation sooner.

QUICK TO ASSEMBLE

Typical assembly completed in around 2–3 days with a small team.

NO SPECIALISED EQUIPMENT

Built using basic tools and simple techniques.

REMOTE LOCATION READY

Lightweight components and smart design make rural and remote installs achievable.

EFFICIENT SHIPPING

All components pack down efficiently for freight and site delivery.

BUILT TO LAST

Engineered for New Zealand conditions and long-term performance.

SIMPLE 3-STEP INSTALLATION PROCESS

Components arrive on site in organised kits.

Your team assembles the dome using simple tools and clear guidance.

Add finishes and furnishings, and you're ready to welcome guests.

DESIGNED FOR NEW ZEALAND

Engineered for coastal, rural and alpine conditions.

ONGOING SUPPORT

We're with you from planning through to long-term success.

COMPLETE SOLUTION

We supply everything you need – structure, skin, doors, windows and support.

PRACTICAL FOR REMOTE SITES

Well suited to lifestyle blocks, retreats and accommodation projects.

DOME LIVING

Create unique accommodation experiences that guests remember.

For New Zealand

BUILT-IN VIEWS. NATURAL WONDER.

Every dome includes a pentagonal skylight as standard, bringing in natural light by day and breathtaking star gazing by night.

DAYLIGHT & WARMTH

Natural light brightens your space, reduces the need for daytime lighting and creates a warm, open feel.

NIGHT SKY EXPERIENCE

Fall asleep under a canopy of stars and wake up to breathtaking island views.

NATURAL VENTILATION

Improves air circulation, reducing heat build-up and keeping your dome comfortable.

INCLUDED AS STANDARD

Every dome comes with a pentagonal skylight as part of the basic package.

OR

YOU CHOOSE

Prefer solid insulation instead? You can choose to exclude the skylight if you prefer.

BRIGHTER DAYS

MAGNIFICENT NIGHTS

UNFORGETTABLE MOMENTS

ECO-RESORTS
